

BOYCOTT CHEVRON

A PRIMARY ENERGY PROVIDER TO ISRAEL

Chevron has a long history of harming people and the planet from Ecuador to the U.S. Gulf Coast. Palestinians in Gaza freeze to death in flooded tents while Chevron supplies nearly half of the electricity to Israel, keeping settlers warm in stolen Palestinian homes.

In our bones, we all know that we belong to this earth and to each other. We will win back our world from corporations that profit off genocide and climate destruction.

This petition already helped tip one campaign to victory: French Quarter Fest dropped its 13-year Chevron sponsorship.

Chevron has tried to whitewash its complicity in genocide by sponsoring events, sports teams, and institutions that offer real value to their local communities. **Until now. Until you.**
